

Assessment Record Sheet – Workshop processes

US 24356 (v3) - Apply elementary workshop procedures and processes for a BCATS project (Level 1, Credit 8)

Student name:	
Project:	

Use this table to record the workshop processes you used for your project. You need to use

- **timber** and 3 other materials (for example, manufactured board, metal, plastic, glass, concrete, mechanical fasteners, adhesives, finishing materials, upholstery fabric/leather)

Materials: What materials were used in this project?
Mark out: What had to be marked out? What tools were used?
Cut/shape: What had to be cut, what had to be shaped, what tools did you use?

Joints/jointing: What joints were used in your project? What tools and materials did you need?

Assemble: What assembling was required? How did you do it?

Finishes: What finishes/finishing were in this project? How did you do them?

(Assessor – Over)

For Assessor use only

Assessment criteria: <i>Note the requirements for timber and three other materials to be used.</i>	Comments and/or notes
Instructions for a project are read and/or listened to. ☐	
Materials marked out, cut and shaped as required for the project. ☐	
Materials joined and components of the project correctly assembled. ☐	
Finishing of the project is in accordance with the specifications. ☐	
All operations completed safely and according to site/workplace practices. ☐	
Tools are looked after and put away correctly. ☐	
Verified photo of completed project is attached. ☐
